- Square Rigger Ship
- Early Settlers Hut
- Miners Hut
- Mine Shaft
- Passenger Liner
- Old Outhouse
- Castle
- Ancient Ruins
- Mosque
- Church
- Bi-Plane
- Tree House
- Insect
- Billy Cart

# Mosque

# Mosque

(SUGGESTED INSTRUCTIONS)

Lay all the pieces out and label them before cutting or gluing.

1. From one piece of Outer Wall cut a front gate/door, keeping the off-cut for extra decoration later. Set aside.
2. Glue another Outer Wall between two Corner Minarets to form the Back Wall of the Mosque. Glue this down in the middle and towards the back of the Base so there is plenty of room for the rest of the Mosque.
3. From the 100mm Decoration Piece cut 4 Square Caps measuring 35mm for capping the Corner Minarets leaving as much leftover wood intact as you can for later. (Instruction 4 &7.)
4. Make the Prayer Hall by gluing the three Inner Wall pieces together, leaving the front open, then gluing on the Roof and the Central Minaret block. You may want to decorate the front with left over wood. Once finished - glue the Prayer Hall close to the Back Wall, leaving space in front of it for a courtyard.
5. Glue the Front Wall (with the gate cut out) to two of the Corner Minarets.
6. Glue the two Side Walls to the Back Minarets. Before the glue dries - glue the Front Wall to the two Side Walls anchoring to the base with glue under the Minarets. Make sure the Mosque is straight and square.
7. Using the 35mm Square Caps you made (Instruction 3.), glue onto the top of the Minarets making sure they are square to the Mosque.
8. Individually glue the small Foam Balls to the top of the Minarets by placing the glue onto the caps (not the balls) and then holding the ball in place until the glue partly sets. Then glue the Large Ball the central Minaret using the same method.
9. Place some glue on each upside down Golf Tee and hold it in place on each of the foam balls to form the Spires.
10. Using any leftover balsa decorate the outside of the Mosque.

Finish the model off by

- Using water based Acrylic craft paint  
– Paint the foam balls to decorate them as Minaret roofs. Do not use spray paint as this will dissolve the foam.
- Make some people from painted clay and put them in the Courtyard or Praying in the Prayer Hall
- Make a fountain for the courtyard
