SHAPING THE FUTURE, TOGETHER

BETTER BUYING POWER = BETTER PRICING FOR YOU

WELCOME TO THE 2024 EDITION

In 2023, we were thrilled to announce a major development in the world of educational resources - **Tools for Schools merged with Gilking School Supplies!**

This collaboration marks a significant milestone in our mission to provide the best tools and materials for educators, students, and parents alike.

This merger is an exciting step forward for us, and we are confident it will bring many benefits to our customers, old and new. Our mission to provide top-quality educational resources remains at the forefront of everything we do, and this merger will enable us to fulfill that mission even more effectively.

PREPARE FOR

INDUSTRY

4.0

Industry 4.0 is the fourth industrial revolution, and it is happening now!

The first industrial revolution emerged in the 18th Century, and saw the advent of factory production.

This was followed by the second industrial revolution, which revolved around mass production.

In the 20th Century, the third industrial revolution came with electronics, I.T. systems and automation.

We are now part of the emerging fourth industrial revolution, which is driven by digital transformation.

Tools for Schools and our partners, such as Dobot, Uscube and System7, are passionate about **helping your students be the leaders of this revolution.**

THE INDUSTRIAL AGES

INDUSTRY 1.0 | 18th CENTURY

Mechanisation, Steam Engines, Water/Steam Power, New manufacturing Iron Production, Textile Industry, Mining & Metallurgy & Machine Tools

INDUSTRY 2.0 | 19th CENTURY

Mass Production, Production Line Electrification, Globalization, Telegraph & Engines/Turbines

INDUSTRY 3.0 | 20th CENTURY

Computer/Internet, Robotics, IT, Digital Manufacturing, Digitization, Digital Machines, Digital Networks & Automation

INDUSTRY 4.0 | 21st CENTURY

Convergence IT, Autonomous Machine, Advanced Robotics, Internet of Things, Smart Factory, Cyber Physical, The Cloud & AI

KNOW HOW HUB

What is Industry 4.0, and how will it affect the future of teaching?

Please Enquire before purchasing.

'A' FRAME STORAGE TROLLEYS

H112314

1970mm (H) x 1230mm (W) x 600mm (D)

Powder Coated Metal Panels

1.2mm zinc seal steel perforated panels accommodate Twist & Lock Tool Hooks. Strong durable design for workshops.

Dual Side Access

Dual side access to all tools and equipment stored keeping productivity high.

Aluminium Pull Handles

Oversized solid aluminium powder coated handles makes moving easy.

Twist & Lock Tool Hooks

With the A Frame Trolley, tools and equipment are organised and neatly stored above the work top area with the use of varying sizes of hooks, holders and hangers. The simple lock and twist design means these tool hooks can be relocated and locked into place from the front with ease.

Castors

Heavy duty non marking braking and fixed castors for improved mobility.

(Hooks Not Included)

Machinery

Part No.: P122133

Starting from
\$2,818.00

Laguna 14BX Bandsaw CE Model

330mm Throat, 2.5hp, 240V Single Phase
Building upon the success of the 14/12 model, the 14BX has similar specs but with a more powerful 2.5hp motor, twin extraction ports and solid one-piece frame constructed using a heavier gauge steel. A foot switch and disc braking system has also been added to more conveniently stop the saw and bring the motor to a virtually instantaneous rest.

Motor	1800w (2.5hp) 10 amp
Blade Length	2,920mm (115")
Dust Port/s	100mm (4") x 2
Switch Type	Magnetic NVR & Emergency Button Stop
Minimum Blade Width	3mm (1/8")
Maximum Blade Width	19mm (3/4")
Maximum Rip Capacity	340mm (13.6")
Table Size	400mm x 546mm (16" x 21.5")
Table Tilt	-7 degrees to +45 degrees
Depth of Cut	330mm (13")
Wheel Diameter	355mm (14")
Workshop Footprint (WxDxH)	755mm x 713mm x 1790mm

Part No.: P121714

Starting from
\$3,909.00

Laguna 18BX Bandsaw CE Model

460mm Throat, 3.0hp, 240V 15 Amp Single Phase
With a resaw capacity of 16", this scaled up version of the best selling bandsaw shares all of the unique features which made the 14BX an award winner. Designed to be tough enough to handle the daily jobs in any workshop. A foot switch and disc braking system has also been added to more conveniently stop the saw and bring the motor to a virtually instantaneous rest.

Motor	2200w (3hp) 15 amp
Blade Length	3,670mm (145")
Dust Port/s	100mm (4") x 2
Switch Type	Magnetic NVR & Emergency Button Stop
Minimum Blade Width	3mm (1/8")
Maximum Blade Width	32mm (1 1/4")
Maximum Rip Capacity	460mm (18")
Table Size	500mm x 660mm (20" x 26")
Table Tilt	-6 degrees to +45 degrees
Depth of Cut	406mm (16")
Wheel Diameter	355mm (14")
Workshop Footprint (WxDxH)	919mm x 759mm x 1975mm

Machinery

Part No.: P123403

Starting from
\$7,540.00**SCM Formula SR650 Radial Arm Saw
400mm 415V**

Conforms to stringent European safety regulations, has:

- Sliding carriage with spring return
- Electronic motor brake
- Back dust collector outlet
- Cast-iron arm, column, pedestal and carriage
- Interchangeable sliding ways
- Carriage with 8 adjustable bearings
- Column protection cover

Maximum cutting precision

The cast iron structure provides the arm the maximum solidity and rigidity for the maximum cutting precision. The interchangeable sliding ways allows the operator a simple and rapid replacing, in case of wear, without direct intervention on the arm.

Precision and smoothness

The 8 sliding bearings on the guides grant the best carriage smoothness and an optimal support for a perfect cutting result.

Blade diameter (Bore Size) mm	400mm (30mm)
Blade tilting	-45° / +45°
Max. Cutting height at 90°/45° mm	120/83 (400mm blade)
Cross cut capacity mm	640 x 20
3-phase motors power starting from	3 (3) / 50 (60)

Starting from
\$2,350.00

Woodmaster M-25 Chisel Mortiser 1HP W345

A heavy duty chisel mortiser with a capacity of 25mm in soft wood, cast iron frame construction with a fabricated steel stand. A single handwheel controls both longitudinal and lateral table movement. This system prevents the table from "skewing", a common problem with other mortisers. The material clamp accommodates different work piece widths, whilst a multi-position down-feed hand lever provides the correct leverage for comfortable use.

It has a gas strut that's mounted in the rear column helps provide a smooth downward travel of the headstock, which also allows headstock "parking" in any position. A large cast iron table with a tall rear fence, plus an easily set depth stop for repeat accuracy is fitted. This machine is well suited to the busy workshop and will provide years of accurate and trouble-free use.

Timber Capacity	160mm
Table Movement	255 x 180mm
Vertical Head Stroke	125mm
Collar Reducing Bush (ID)	Ø19 & Ø15.9mm
Motor Power	0.75kW / 1hp
Voltage	240V
Floor Space (W x D x H)	940 x 750 x 1720mm
Nett Weight	160g

Ø330 x 600mm Turning Capacity - Ø40mm Spindle Bore
Includes Digital Readout System

Swing Over Bed	2200w (3hp) 15 amp
Distance Between Centres	3,670mm (145")
Spindle Bore	100mm (4") x 2
Swing Over Cross-slide	200mm
Digital Readout System Fitted	Yes
Leadscrew Covers Fitted	Yes
Coolant System	Yes
Tool Height To Suit	16mm
Centre Height	165mm
Spindle Nose Size or Type	D1-4 Camlock
Bed Width	190mm
Headstock Spindle Taper	5M
Tailstock Taper	3M
Cross Slide Travel	175mm
Compound Slide Travel	100mm
Spindle Steps / Speeds	18 (50 - 2000) (No. / rpm)
Motor Power	2.25kW / 3hp
Voltage	415V

Part No.: P101707

Starting from
\$1,090.00

BS-76 - Belt Linisher Sander

High performance 2 speed , 1420 & 2840rpm motor
Belt speed 870, 1740mpm / 2850, 5700fpm
Strong 2.2kW / 3HP 415V motor
Large 75 x 465mm working surface
Quick change belt system
Tilting finishing head
Front & rear 100mm dust chutes
Overload protection switch for motor
Belt size 75 x 2000mm

Mounting Type	Pedestal
Includes Stand	Yes
Belt Size	75 x 2000mm
Belt Speed (fpm / mpm)	2850, 5700 / 870, 1740
Motor Speed	1420 / 2840 rpm
Motor Power	2.2 kW / 3 hp
Voltage	415V

Machinery

Part No.: P120951

Starting from
\$3,590.00

SG-416S - Manual Treadle Guillotine

Quality 9CrSi Blade Material Suitable for Stainless Steel & Fitted with Rear Safety Guard
Quality steel-fabrication construction
Blades made from 9CrSi material suitable for stainless steel
Spring loaded material clamp beam
Greasing & oiling points on bearing surfaces
Adjustable blade gap clearance for thin material
Tabs fitted to isolate machine with padlock (Please note padlock not included)
Includes front sheet supports, backgauge & rear safety guard
Mild steel capacity is rated on hot rolled material with 250MPA
Fitted with rear safety guarding with screw locked access door

Shearing Capacity - Mild Steel	1.6mm
Shearing Capacity - Stainless Steel	1mm
Shearing Length	1300mm
Floor Space	1700 x 1160 x 1100mm

Part No.: P108224

Starting from
\$4,500.00

MB1250 - Magnetic Panbrake

1300 x 1.6mm Mild Steel Bending Capacity Electromagnetic sheet metal folding machine
Bends all types of sheet metal, aluminium, copper, stainless steel for Typical industries: Roofing, Aircraft, General Sheet Metal Fabrication
6 Tonne Clamping Force (with standard full-length clamp bar)
Electromagnetic rather than mechanical clamping
Excellent design easy to use - forming deep channels and closed sections, deep boxes
Much greater versatility than conventional sheet metal benders
No limitation to depth of boxes
Can form deep channels, and completely closed sections
Automatic clamping and unclamping means faster operation, less fatigue
Quick and accurate sliding angle guide on bending arm
Infinite length bending in stages is possible

Foot Control Fitted	Yes
Mild Steel Capacity	1.6mm
Bending Length	1300mm
Voltage / Amperage	240V / 10amp

Prices exclude GST. All product details including brand and pricing are subject to change without notice. **Refer to website for current pricing.**

Machinery

Part No.: P107643

Starting from
\$3,850.00

PB-422A - Manual Panbrake

1250 x 2mm Mild Steel Bending Capacity
Removable Individual Bending Fingers & Includes Quick Action Head Adjustment for Material Thickness
1250mm x 2mm capacity
Extended fingers allows bending of pans or boxes to a depth of 230mm
Quick head adjustment mechanism to suit your material thickness
Ground segmented fingers can be repositioned to suit many applications
Heavy duty steel fabricated frame provides accurate bends
Safety top beam support stop lever located on right side of Grease nipples located on all rotating parts
Quick action beam adjustment for varying material thickness
Removable individual bending fingers for pans or boxes
Mild steel capacity is rated on hot rolled material with 250MPA

Bending Capacity - Mild Steel	2mm
Material Length Capacity	1250mm
Shearing Length	1300mm
Floor Space	1820 x 620 x 1300mm

Part No.: P108100

Starting from
\$3,990.00

HPM-50 - Industrial Hydraulic Press - 50 Tonne

Industrial Hydraulic Press - 50 Tonne
Robotic Welded Steel Frame Construction
Includes Adjustable Sliding Cylinder Ram, Foot & Hand Operated Pump, Table Winch, Pressure Gauge & Bending Vee Blocks

Pressing Capacity	50T
Hydraulic Ram Operation	Manual Hand Lever / Foot Pedal System
Sliding Ram (left-right)	Yes
Width Between Front Posts	730mm
Width Between Side Posts	205mm
Table Top Opening - (Front to Back)	185mm
Ram To Table (Max.)	1050mm
Piston Ram Stroke	200mm
Ram Diameter	Stroke200mm
Floor Space (W x D x H)	Stroke200mm

Machinery

Part No.: P108682

Starting from
\$3,250.00

CS-315C - Cold Saw, Includes Stand

110 x 70mm Rectangle Capacity
Ø315mm Blade, Single Speed 44rpm
Rugged cast iron construction offers years of accurate cutting
Lock at any angle between -45° or +45° mitre in both directions via locking lever
Degree markings engraved onto swivelling base for quick and accurate mitre cutting
Dual material clamp system providing burr free cuts on both pieces of material
Quick action vice clamp lever designed to increase production

Cutting Head Action	Manual
Operation Type	Swivel - Dual Mitre
Round Capacity @ 90° / 45°	100 / 90mm
Square Capacity @ 90° / 45°	82 / 75mm
Rectangle Capacity @ 90° / 45° (WxH)	110 x 70 / 85 x 70mm
Blade Size - Diametre. x Bore (Ø)	315 x 32 mm
Vice Clamping Fixture	Manual
Coolant System	Yes
Table Working Height (with Stand)	980mm
Blade Speed	44rpm
Motor Power	1.8kW / 2.5hp
Voltage / Amperage	240V / 15amp

Part No.: P101913

Starting from
\$7,480.00

Brobo Coldsaw S350G

Quick action mitering
Mitering locking device stops at 45° left, straight 90° and 45° right
Fully integrated coolant system provided on all machines
Spindle and drive unit immersed in oil solution and enclosed within gearbox housing for smooth performance and reduced machine wear
Every unit is provided with a high speed steel blade for general purpose cutting of ferrous solid and tube profiles
Saws supplied with integrated stand.
Trigger Switch (DMT) to activate Machine

Weight	247 kg
Dimensions	114 x 114 x 164 cm
Blade Size	315, 350, 400
Speed	Single Phase Single Speed 42 RPM, Three Phase 2 Speed 21/42 RPM, Three Phase 2 Speed 42/85 RPM, Single Phase Vari Speed (20-100 RPM)

\$1,350.00

BG-8 Pedestal Grinder

Features

Full cast iron body
Adjustable tool rests
Adjustable eye shields
Safety stop switch
5/8" x 11TPI spindle
200 x 25 x 20mm Wheels
Buff wheels included

Wheel Diameter	Ø200mm
Grinding Wheel Type	46Grit / 60Grit
Spindle Shaft	5/8" x 11TPI
Spindle Speed	2850RPM
Motor Power	0.75kW / 1hp
Voltage / Amperage	240V / 10amp

Part No.: P108108

Starting from
\$1,720.00

225-BUFF Pedestal Buffing Machine

Features

Full cast iron body
Adjustable eye shields
Safety stop switch
Tapered spindle
225 x 25mm Buffing Wheels
Buff wheels included

Wheel Diameter	Ø225mm
Buffing Wheel Type	2 x Mops
Spindle Shaft	Tapered
Spindle Speed	2850RPM
Motor Power	1kW / 1.3hp
Voltage / Amperage	240V / 10amp

Startech cn k Compact Machining Centre

Compact 3-axis machining centre ideal for all types of milling, decorations, engraving, signboard creation and 3D models prototyping.

Worktable dimensions	1170 x 760mm
X-Y-Z strokes	915-610-176mm
Z-axis work-piece clearance	160mm
X-Y-Z axes max. speed	5-5-2,5
Max. tool diameter	60mm
Max. tool-holder diameter	16mm
Electrospindle max speed	24.000rpm
Electrospindle motor power	2.4 kW (S6)

Maximum safety

The integral cabin with internal LED lighting ensures protection for the operator and keeps the surrounding environment clean.

Unique in its category

The machine has a powerful 2.4 kW electrospindle with R25 tool-chuck generally used on higher-segment machines!

Easy programming

"Open" virtual human-machine interface capable of importing G-code from any type of CAD/CAM software (it is advisable to verify with the software supplier that the CAD/CAM provides a G-code that can be read from the interface).

No limit to creativity

4th interpolating axis (lathe processing) that can be positioned on the worktable.

DESIGNED FOR SAFETY

MAKER SPACE ESSENTIALS

BENMAKER is an education workshop solution aiming to improve hand-eye coordination and to contribute to skills that will transform imagination into a production-oriented education culture.

BenMaker Wood Shaping & Design Set

Designed by BenMaker, prioritizing children's health and safety, so that our children can develop their production skills. It consists of Lathe, Sander, Jigsaw and Drill Modules and Worktable.

- Child Friendly
- Supports fine motor development
- Enhances Hand-Eye and Brain coordination
- Develops imagination and aesthetic perception

Filament	UP Fila ABS, ABS+, PLA, TPU and more
Filament Diameter	1.75mm
Spool Compatibility	500 – 1000g

Physical Dimensions

Machine Dimensions	500 x 523 x 460 mm
Net Weight	30kg
Shipping Box Dimensions	610 x 565 x 600 mm

Material-Specific Extruders

One is for ABS and other high temperature filaments, one for lower temperature filaments such as PLA, and the other is for TPU, a flexible polyurethane.

Interchangeable Build Plates

New double-sided build plate design allows for easier print job removal due to its rigidity.

Waste Collection Tray

A removable waste collection tray is positioned below the build platform to make cleaning the bottom of the printer's enclosure a breeze.

Tiertime Print Queue

Allow multiple users on the network to become the queue's administrator, controlling and re-ordering the print queue.

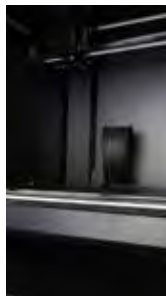

Part No.: P120787

Material-Specific Extruders

Dual Filtration System HEPA + Activated Carbon Filters

Higher airflow capacity capable of maintaining minimal UFP and VOC density inside the printer's large enclosure.

Interchangeable Double-Sided Build Plates

Glass surface provides a consistent, flat base, ensuring a smooth model underside, desirable for printing without a raft.

Price ex GST
\$3,265⁵⁰

3D Printers

Continuous 3D Printing

A breakthrough in 3D printing, designed for low-volume manufacturing.

Specifications

Eight Print Jobs – One 3D Printer

Auto-Swapping Build Plate

Automatically loading fresh build plates onto the build platform after the previous print job is complete.

Auto-Swapping Build Plate

Loading fresh print plates onto the build bed after the previous print job is complete.

Dual Filtration System

HEPA and activated carbon filters radically reducing toxic UFP and VOC emissions.

Build Plate Vault

Housing twelve build plates with one 3D Printer

Tiertime Print Queue

Multiple users to stack print jobs into a queue, accessible from the printer's touchscreen and from software.

Dual Filtration System

HEPA + Activated Carbon Filters

Higher airflow capacity capable of maintaining minimal UFP and VOC density inside the printer's large enclosure.

3D Printers

Bambu Lab P1P 3D Printer

Ready to print out of the box

Specifications	
Build Volume (WxDxH)	256 × 256 × 256 mm ³
Nozzle	Stainless Steel
Hotend	All-Metal
Max Hot End Temperature	300°C
Filament Diameter	1.75 mm
Filament Run Out Sensor	Yes
Chamber Monitoring Camera	Low Rate Camera 1280 x 720 / 0.5fps Timelapse Supported
Supported Filament	Ideal: PLA, PETG, TPU, PVA, PET Capable (Enclosure required): PA, PC, ABS, ASA Not Recommended: Carbon/Glass Fiber Reinforced Polymer
Build Plate Surface Compatibility	Bambu Cool Plate, Bambu Engineering Plate, Bambu High Temperature Plate
Max Build Plate Temp	100°C
Max Speed of Tool Head	500 mm/s
Max Acceleration of Tool Head	20 m/s ²
Physical Dimensions	386 × 389 × 458 mm ³

Part No.: P123557

Succeed with a Perfect First Layer

The automatic bed leveling (ABL) sensor calibrates and levels the bed properly, making you a perfect first layer for every 3D print.

Customizable Options

The side panels of the Bambu Lab P1P can be customized, printed, and installed by users. 3MF files for the modplates and a 3D model are now available for DOWNLOAD with instructions included.

Upgrade Options

Bambu Lab P1P can be upgraded to P1S with the Space between UPGRADE KIT. And the kit provides enclosure and sufficient cooling solution for more high-temperature filaments.

Price ex GST
\$994.50

Ready to print out of the box
15 minute set-up.
No tinkering required.

CoreXY up to 20000 mm/s² Acceleration

The P1 series inherits the proven kinematics and motion control system of the Bambu Lab Flagship printer. It can print with up to 500 mm/s, the acceleration from zero to 500 mm/s takes just 0.025 seconds.

Vibration Compensation & Extrusion Compensation

The P1 series inherits the proven kinematics and motion control system of the Bambu Lab Flagship printer. It can print with up to 500 mm/s, the acceleration from zero to 500 mm/s takes just 0.025 seconds.

3D Printers

P1S 3D Printer Combo - With AMS

Up to 16-colour printing with AMS

Specifications	
Build Volume (W×D×H)	256 × 256 × 256 mm ³
Shell	Enclosed (Plastic & Glass)
Nozzle	Stainless Steel
Hotend	All-Metal
Max Hot End Temperature	300°C
Nozzle Diameter	0.4 mm (Included). 0.2 mm, 0.6 mm, 0.8 mm (Optional)
Filament Run Out Sensor	Yes
Chamber Monitoring Camera	Low Rate Camera 1280 x 720 / 0.5fps Timelapse Supported
Supported Filament	Ideal: PLA, PETG, TPU, PVA, PET Capable (Enclosure required): PA, PC, ABS, ASA Not Recommended: Carbon/Glass Fiber Reinforced Polymer
Build Plate Surface Compatibility	Bambu Cool Plate, Bambu Engineering Plate, Bambu High Temperature Plate
Max Build Plate Temp	100°C
Max Speed of Tool Head	500 mm/s
Max Acceleration of Tool Head	20 m/s ²
Physical Dimensions	389 * 389 * 458 mm ³
Electrical Requirements	100-240 VAC, 50/60 Hz, 1000W@220V, 350W@110V

Part No.: P123573

Product Features

- Works right out of the box, set up in 15 minutes
- Well-polished hardware and software
- Enclosed-body for high-temperature filament printing
- Up to 16-color printing with AMS
- Up to 20000 mm/s² acceleration, prints a benchy in 18min
- Built-in camera for remote monitoring and timelapse

Price ex GST
\$1,589.00

What is the difference between P1S and P1P?

Compared to the P1P, the P1S offers a fully enclosed printing chamber and a more powerful cooling solution, which includes an Auxiliary Part Cooling Fan for cooling prints, a Chamber Regulator Fan to stabilize the inner chamber temperature, and a Control Board Fan to assist in cooling the control board. Furthermore, they are equipped with an activated carbon filter to provide a solution for printing filaments such as ABS that are prone to emitting odours and harmful gases during the printing process.

What is the difference between P1S and X1C (next pages)?

P1S is based on the P1P with an improved cooling solution and enclosure. However, it is not recommended to directly print fiber-reinforced filaments such as glass fiber or carbon fiber, before an extruder and hotend upgrade is done. The X1-Carbon is equipped with Micro lidar for advanced AI detection functions and offers more convenient and efficient screen interaction.

Prices exclude GST. All product details including brand and pricing are subject to change without notice. **Refer to website for current pricing.**

Filament Diameter	1.75 mm
Supported Filament	PLA, PETG, TPU, ABS, ASA, PVA, PET Ideal for PA, PC, Carbon/ Glass Fiber Reinforced Polymer
Build Plate Surface	Bambu Cool Plate, Bambu Engineering Plate Included
Max Build Plate Temperature	110°C@220V, 120°C@110V
Max Speed of Tool Head	500 mm/s
Max Acceleration of Tool Head	20 m/s ²
Physical Dimensions	389 × 389 × 457 mm
Electrical Requirements	100-240 VAC, 50/60 Hz, 1000W@220V, 350W@110V

Part No.: P123718

What to Expect from the X1-Carbon 3D Printer

- 20 m/s² acceleration
- Micro lidar assisted bed leveling
- Active vibration compensation for better print quality
- Spaghetti failure detection and auto-pause
- Print resume after power outage

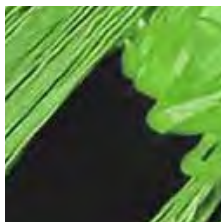

Dual Auto Bed Leveling

Dual Auto Bed Leveling system checks for increased reliability. The lidar and analog force sensors crosscheck for an extra layer of redundancy in bed leveling.

AI Inspected first layer

Tired of waiting out that first layer? The lidar sensor can check your first layer so that you can get back to doing... anything else..

Spaghetti detection

Our AI keeps an eye out for Spaghetti monsters, so you can sleep easy in the knowledge that your printer is safe from this scourge.

X1-Carbon Combo 3D Printer

Multi Colour & Multi Material Capability

Specifications	
Build Volume (W×D×H)	256 × 256 × 256 mm ³
Nozzle	0.4 mm Hardened Steel Included
Hotend	All-Metal
Max Hot End Temperature	300°C
Filament Diameter	1.75 mm
Supported Filament	PLA, PETG, TPU, ABS, ASA, PVA, PET Ideal for PA, PC, Carbon/ Glass Fiber Reinforced Polymer
Build Plate Surface	Bambu Cool Plate, Bambu Engineering Plate Included
Max Build Plate Temperature	110°C@220V, 120°C@110V
Max Speed of Tool Head	500 mm/s
Max Acceleration of Tool Head	20 m/s ²
Physical Dimensions	389 × 389 × 457 mm
Electrical Requirements	100-240 VAC, 50/60 Hz, 1000W@220V, 350W@110V

Part No.: P123556

NEW
PRODUCT

All the Features of the X1 Carbon 3D Printer, but includes as standard...

AMS - Automatic Material System

Make Multi-Color 3D Printing Real

Colour, the ultimate expression of emotions, is brought to you by Bambu Lab's Automatic Material System (AMS). You can now enjoy printing freely in multiple colors and materials.

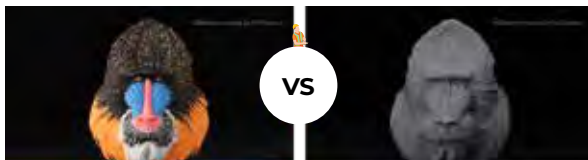

Features

- Multi-Colors/materials Capability
- Keep Filament Dry
- Filament Runout & Winding Detection
- AMS Filament Backup

What to Expect from the X1-Carbon Combo 3D Printer

- Core XY with 20000 mm/s² acceleration
- Up to 16 multi-color printing
- Dual auto bed leveling
- 7µm lidar resolution
- Spaghetti failure detection
- AI inspected first layer

Robots

SKILLS THAT STUDENTS DEVELOP THANKS TO EDUCATIONAL ROBOTS

As a dedicated teacher, you're always seeking fresh ways to ignite your students' curiosity and bring classroom learning to life. Dive into the captivating world of STEM education, where Dobot Robotics has emerged as your ideal partner for an inspiring educational journey.

STEM fields drive innovation, and fostering STEM skills is crucial in equipping students for the ever-evolving job market. Educational robotics provides an engaging path to cultivate these skills.

Robots

The Future Trends in Educational Robotics

AI Integration

Imagine your students not just controlling a robotic arm, but also teaching it to learn and adapt. The integration of Artificial Intelligence (AI) is a groundbreaking trend in educational robotics. Dobot's AI-ready features empower students to explore AI applications, bridging the gap between robotics and cutting-edge technology.

Remote Learning

Recent advances have made it possible for students to operate robotic arms from the comfort of their homes. Dobot's remote capabilities transcend physical boundaries, ensuring that STEM education remains accessible regardless of location or students' abilities. It's like bringing your STEM classroom to every student's doorstep.

Interdisciplinary Learning

The future of education is marked by interdisciplinary connections. Robotics, particularly with Dobot's versatility, enables students to delve into science, technology, engineering, mathematics, and beyond. It promotes creative thinking, problem-solving, and real-world application of STEM concepts.

Programming Skills

Future-proof your students' skill set! Robotics has only just started to "go mainstream" so the demand for this skill will most definitely continue to grow.

Why Choose Dobot for STEM Education?

User-Friendly: Dobot's intuitive interface is tailored to accommodate students of all ages and skill levels. Whether you're introducing robotics to kindergarteners or engaging high schoolers, Dobot ensures a user-friendly experience, promoting active participation.

Wide Range of Applications: From 3D printing to laser engraving, Dobot's capabilities are boundless. It's not just a robotic arm; it's a versatile tool that harmonizes seamlessly with various STEM subjects, enriching the learning experience.

Community Support: Dobot boasts a vibrant online community comprising educators and students who eagerly share ideas, projects, and solutions. You'll never walk this STEM journey alone. Plus, Dobot's customer support is readily available to assist with any inquiries.

Affordability: We understand the budget constraints educators face. Dobot offers an affordable solution that maximizes value without compromising quality. You can provide your students with a top-tier STEM experience within your budget.

Continuous Updates: Dobot is committed to remaining at the forefront of educational robotics. Regular software updates keep your Dobot robot arm equipped with the latest features and enhancements, ensuring that your STEM lessons are always cutting-edge.

DOBOT Magician Educational Version

One-Stop Solution for:
STEM Education
Teach Robotics
Teach Coding

- Number of Axis: 4
- Payload: 500g
- Max. Reach: 320mm
- Position Repeatability(Control): 0.2 mm
- Communication: USB / WIFI / Bluetooth
- Power Supply: 100 V - 240 V , 50/60 HZ
- Power In: 12 V / 7A DC
- Consumption: 60W Max
- Working Temperature: -10°C - 60°C
- Accuracy: 0.2mm
- End Effectors: Vacuum pump Kit, Gripper, Writing and Drawing Kit, 3D Printing Kit, Wi-Fi and Bluetooth module, Joystick control kit

Teach Robotics Physically

The Magician is designed for students and consumers in mind. It is extremely portable and capable of various automation tasks. Users can interact with the Magician using quick access command buttons or wirelessly with portable computing devices.

High Expandability with Secondary Development

The Magician has 13 interface ports and wireless connectivity for secondary development. Controller support is available for beginners.

Operable by One Person

The Magician is designed for students and consumers in mind. It is extremely portable and capable of various automation tasks. Users can interact with the Magician using quick access command buttons or wirelessly with portable computing devices.

Wide Selection of Accessories

A wide variety of accessories such as grippers, rails, conveyor belts, mobility and vision modules are available to allow the Magician to complete different tasks.

DOBOT AI-Starter

Part No.: P122988

Designed to learn Artificial Intelligence

Children gain programming knowledge by simply visually dragging and dropping commands (Blockly). Logical thinking is being developed and they are training to become the front runners in the age of artificial intelligence. Start by learning artificial intelligence with AI-Starter.

Graphic Programming Makes Teaching Fun

With Arduino-compatible graphic programming software, children can gain intuitive programming knowledge and easily cultivate logical thinking.

Smart Autopilot

AI-Starter has different types of sensors, including: an infrared patrol line, ultrasonic waves, colors, light-sensitive and geomagnetic sensors. These make automatic driving possible and it is a pleasure to experience the charm of the autopilot in this way.

AI Education Workshops

Teaching lessons and online courses on robot programming are offered. Students can follow the tutorials to assemble the Robot step by step, build circuits and they learn to write programs themselves.

Expandable Interface for Different Applications

AI-Starter is equipped with XBEE, bluetooth, universal IO, a serial port, I2C and other extensive interfaces. This allows children to give free rein to their imagination and to make new discoveries.

Price ex GST
\$2,805.00

DOBOT Magician Go

Part No.: P122996

Omnidirectional Mobile Platform Designed for AI and STEAM Education

Using the Mecanum Wheels, Magician Go moves in any direction without changing its positions, such as horizontally, sideways, and rotating. It works in a more complex and narrow space and adapts to various applications under different conditions.

Coordinate System and Map Navigation

Magician Go has a built-in odometer, which can obtain real-time position information. With one-to-one simulation to create a real dynamic environment, it is convenient for users to monitor the robot's movement status and perform autonomous path planning.

AI Vision and Automatic Driving

The DOBOT Magician Go applies localized visual recognition, such as image, face, and text recognition. Based on the vision system, the DOBOT Magician Go performs multiple autonomous driving scenarios, including intelligent road inspection, street sign detection, pedestrian detection, and robotic arm intelligent sorting.

Rich Accessory Options for Extended Learning

Cooperating with RobotLab to achieve more AI and hardware interaction scenarios, DOBOT Magician GO supports graphical programming and Python programming, which opens more opportunities for students of all ages to learn artificial intelligence technologies, such as automatic driving.

MG400 Lightweight Industrial Robot

Part No.: P122933

Price ex GST
\$3,559.50

The Dobot MG400 is a lightweight desktop robot that has a smaller footprint than A4 paper. It is designed to be flexible to deploy, easy to use and safe to collaborate with.

The MG400 is equipped with servo motors with a high-precision absolute encoder. Coupled with a self-developed servo drive and controller, the robot's repeatability is measured up to $\pm 0.05\text{mm}$. With the vibration suppression algorithm in the controller and ensured trajectory accuracy of multi-axis motion, the repeatability bandwidth stabilization time is accelerated by 60%, and the residual vibration by 70%.

Specifications

Payload	500g (Max: 750g)
Max. Reach	440mm
Repeatability	$\pm 0.05\text{mm}$
Weight	8kg
Base Size	190mm x 190mm

Robots

The DOBOT M1 Pro is the second generation intelligent collision detection SCARA robot with a built-in dynamic algorithm and operational software. It is ideal for industrial training. A simple design, collision detection, and hand-guided learning make M1 Pro intelligent and easily manageable.

Designed for smart integration, M1 Pro is efficient to install. Its encoder interface supports conveyor tracking functionality and adjusts robot paths to the motion of a conveyor. DOBOT M1 Pro maintains the smoothness and guarantees consistent production, e.g., in the gluing application.

DOBOT M1 Pro

DOBOT CR Series

Safe, Flexible, and Self-learning Collaborative Robot Series

Adaptable and Self-learning CR Series Cobots empowered by a wide range of payloads from 3 to 16 kg, these cobots apply to multiple industries. They operate in a 6-axis mode, enabling a high level of their flexibility with an accuracy of up to $\pm 0.02\text{ mm}$. DOBOT CR series robotic arms are safe and easy to learn and use. With these features, DOBOT CR series cobots meet rich customer needs for flexible automation that significantly reduces business costs and improves production efficiency.

Section 5

Lasers, Laser Materials, Plotters, CNC Routers

WHY SHOULD YOUR SCHOOL PURCHASE A LASER MACHINE?

- 1 ENCOURAGES CREATIVITY & INNOVATION
- 2 ENCOURAGES DESIGN THINKING
- 3 ENTREPRENEURIAL THINKING
- 4 DEVELOPS DESIGN SKILLS
- 5 PROMOTES MAKER/ ASSEMBLY SKILLS
- 6 INCREASES STUDENT ENGAGEMENT
- 7 TEACHES MACHINE OPERATION
- 8 BETTER UNDERSTANDING OF MATERIALS
- 9 TEACHES HOW TO GAIN FROM FAILURE

WHAT YOUR SCHOOL CAN EXPECT:

- Laser specialists, with a personal and practical approach.
- Turn-key laser packages, focused around versatility, reliability and ease-of-use.
- Interactive staff training onsite.
- Support with integration. Ongoing technical support & training.
- Inclusive warranties, to give you the peace of mind.

LASER SAFETY

Safety Interlocks

The interlocks immediately stop the laser if the lid is opened during operation or if any other doors or panels are removed from the machine.

Key Lock

The Laser source will not operate unless the key is inserted and turned on. This means the teacher has control and is a safe guard against students operating the laser without supervision.

Safety Signs

We will supply safety signage for the school to display around the area of the laser system.

Glass Lid

Many GCC machines have a filtered glass lids that fully protects the operator from eye exposure to the radiation wave length. As opposed to the common acrylic lid, the glass lid will not melt in the event of a fire.

Emergency Stop Button

Most materials cut or engraved on a laser are combustible. This means that using the laser may represent a significant fire hazard. This risk is partly mitigated by the use of an extraction fan and compressed air through the laser head onto the cutting area. If ignition does occur, there is a big red emergency stop button that immediately shuts down the machine.

Lasers, Laser Materials, Plotters, CNC Routers

i Types of Laser Tubes

CO₂ GLASS TUBE

A common, slower pulsing and less expensive option, but a good all-rounder for cutting and engraving. Uses high DC voltage to fire the laser and requires a water chiller to cool the tube. These have a shorter life expectancy - up to 3 years.

CUTTING CAPABILITIES

Acrylic	40w	80w	100w	130w

GCC E200 Desktop Laser
Page 93

GCC LaserPro X252 RX-80
Page 94

GCC LaserPro X380 RX-100
Page 95

ENGRAVING CAPABILITIES: Standard

CO₂ METAL or CERAMIC TUBE

A continuous, fast pulsing tube that produces the highest quality engraving. The laser beam is controlled by the safer RF (Radio Frequency) and can either be air cooled or water cooled. These tubes are initially more expensive, but have a longer lifetime - up to 12 years.

CUTTING CAPABILITIES

Acrylic	40w	60w	80w	100w

Darkly Labs

EMBLASER 2**LASER ENGRAVER / CUTTER****Wireless Desktop Laser Cutter & Engraver Bundle (including F2000 Filter)**

The Emblaser 2 is the second generation desktop laser cutter and engraver by Darkly Labs designed and manufactured right here in Australia. Created to be easy to use while maintaining the highest safety standards the Emblaser 2 is suitable for use in schools, home and business.

Dimensions

External Dimensions 540mm x 720mm x 200mm

Material Capacity 500mm x 300mm x 50mm

Optics

Focus Factory pre-focused

Laser Unit Type Solid-State Diode
Equivalent to 15-20watt CO2 laser

Beam Spot Size 0.1-0.2mm

Classification Class I
The safest laser device rating available

Engraving Resolution 1200 DPI

Max Cutting Thickness 6mm

Hardware

3D Cutting & Engraving, fully software controlled

Camera for material alignment

Wifi & USB Connectivity

Fume Extraction, built-in

Internal Workspace Lighting - Internal LEDs

Software

LightBurn is fully compatible with both Windows and OSX

Bundle includes the F2000 Fume Extractor
(value \$391 exGST)

**1**

Safe Designed as a Class 1 laser device, the safest classification, the Emblaser 2 safety features include an on-board 'Material Ignition Alert' system which will shut down the machine and sound a warning if a potential ignition has been detected.

Easy to Use Intuitive and easy to use software combined with easy alignment of materials using the inbuilt camera the Emblaser 2 bypasses the long learning curves commonly associated with laser cutters and engravers.

\$

Affordable Costing a fraction of the price of other entry level machines the Emblaser 2 is the perfect solution for those with a limited budget

Portable With a small footprint without compromising on capacity the Emblaser 2 is a true desktop laser cutter that will fit comfortably on most tabletops in school, home or workshop.

The Emblaser 2 can cut, mark and engrave cloth, cardboard, paper, leather, wood, plastics and so much more!

GCC E200 DESKTOP LASER ENGRAVER / CUTTER

Simple, Professional, Affordable Desktop Laser

E200 is GCC latest LaserPro professional-grade laser engraving machine, containing advanced functions with user-friendly design and superb finishing results.

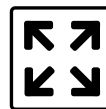

Specifications	
Work Area	510 x 330mm
CCD Camera	Standard, accurate within 4mm
Working table	Standard grid cutting table
Dimensions	915 x 780 x 300 mm
Laser Wattage	DC driven glass laser tube: 40W
Laser Source	Sealed CO2 laser
Drive	Closed-loop DC Servo Control
Maximum Working Speed	20 IPS
Maximum Cutting Thickness	6mm
Speed Control	Adjustable from 0.1~100% (Up to 5 color-linked speed settings per job)
Power Control	Adjustable from 0~100% (Up to 5 color-linked power settings per job)
DPI	Available 250,380,500,760,1000
Focus Lens	Standard 1.5"
Computer interface	Full-speed USB 2.0 port, 10 Base-T Ethernet
Compatible Operating systems	7" touch screen
Connection	WiFi, Ethernet, USB
Water Chiller	Standard
Safety	Class I Laser Product Complies with EN60825-1 Class II Laser Product Complies with CDRH
Facility Requirements	
Electrical	100-240VAC, 50-60Hz Auto Switching, Max. 15A External exhaust system with minimum flow rate 300 m3/h (10594 ft3/min) is required, 2,500PA negative pressure (Pure-Air PA-300 @ 4" exhaust port)

GCC Expert II PLOTTER 24

G141423
\$1,410.00
Price ex GST

Expert II produces eye-catching graphics with up to 27.8 ips cutting speed, up to 350 gram of cutting force and guaranteed 3 meter tracking.

Enhanced AAS II Contour Cutting System

GCC Expert II LX model features a standard Automatic-Aligning System (AAS II) to guarantee precise contour cutting by detecting the registration marks on digitally produced images.

Guaranteed 3 Metre Tracking

GCC Expert II Series is built from the finest parts that come with every GCC cutter. It comes with stable drums that can guarantee 3 meter tracking to ensure quality outputs and save you materials and costs.

Specifications	
Max. Cutting Width	600 mm
Max. Media Width	719 mm
Acceptable Material Thickness	0.8 mm
Max. Cutting Force	350 g
Max. Cutting Speed	705 mm/sec (27.8 ips) (at 45 degree direction)
Mechanical Resolution	0.012 mm
Software Resolution	0.025 mm
Distance Accuracy	±0.254 mm or ±0.1% of move, whichever is greater
Repeatability	256-level gray scale image processing capability
Distance Accuracy	0.254 mm or 0.1% of move, whichever is greater
Repeatability	±0.1
Tracking	3M
Memory Buffer	1 MB / 500KB(when using AAS)
Type of Command	HPGL, HPGL/2
Configurable Origin	Yes
Repeat	Yes
Copy	Yes
Control Panel	6 LEDs / 10 Keys
Diameter of Blade	2.5 mm
Dimension (HxWxD)	233 x 880 x 255mm
Net Weight	11KG
Stand	Optional
Automatic-Aligning System (AAS II)	Available on Expert II LX models

Lasers, Laser Materials, Plotters, CNC Routers

FREIGHT MAY APPLY

GCC Jaguar V PLOTTER J5-61

With intuitive features to meet the demands of today's professionals, the Jaguar V series represents the apex of vinyl cutting plotter technology.

Specifications

Operational Method	Roller-Type
Max. Cutting Width	610 mm
Max. Media Loading Width	770mm
Min. Media Loading Width	50 mm
Number of Pinch Rollers	3
Acceptable Material Thickness	0.8 mm
Driver	DC Servo Control
Max. Cutting Force	600g
Max. Cutting Speed	1530 mm/sec (60 ips) (at 45° direction)
Acceleration	4.2 G (gravity)
Offset	0~1.0 mm (with an increase of 0.025mm)
Memory Buffer	32 MB /16 MB (when using AAS)
Interfaces	USB 2.0 (Full Speed) and Serial (RS-232), and Ethernet
Type of Command	HP-GL, HP-GL/2
Mechanical Resolution	0.006 mm
Software Resolution	0.025 mm
Distance Accuracy	±0.254 mm or ±0.1% of move, whichever is greater
Repeatability	±0.1 mm
Automatic-Aligning System	Available on Jaguar V LX models, including Segmental Positioning and Auto Rotation functions
Auto Rotation	Available on Jaguar V LX models
Section Cutting	Yes
Curve & Arc Smoothing	Yes
Configurable Origin	Yes
Test Cut Capability	Yes
Tangential Mode	Yes
Over Cut	Yes
Repeat	Yes

P121311
\$3,277.00
 Price ex GST

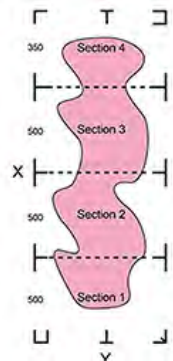

Guaranteed 10 Metre Tracking

The exclusive grid drum and precisely engineered mechanism to provide superb tracking ability.

Section Cutting

Section cutting divides the long plot data into sectional output jobs to gain higher cutting quality and increase precision. GCC Jaguar V series scan registration mark of section 1 and cut the plot data in section 1, and then it scan registration mark of section 2 and cut the plot data in section 2, and so on.

Specifications

Engraving Material Plastic (ABS, Acrylic), Wood, Foam, Styrene foam, Modeling Wax, Epoxy tooling Board...etc

Model	BE2015 (BE2216)
Table Size	X 320 mm x Y 150 mm
Table Load Weight	Max. 3kgs
Engraving Area	X 220 mm x Y 160 mm x Z 63 mm
Max. Engraving Speed	2,500 mm/min
Software Resolution	0.02 mm
Mechanical Resolution	0.02 mm
Spindle Motor	150W Brushless DC Motor
Spindle Speed	The spindle speed is adjustable. Also, the maximum spindle speed is 20,000 RPM.
Tool Diameter	ER-11 Collet: 3, 4, 6 mm
Interface	USB
Machine Size	390 x 400 x 425 mm

Removable rear cover, easy to clean, and place materials.

Includes: clamps (Toothed plate) which can adjust the height. A reusable silicone mat, easy to engrave acrylic, ABS photos, etc. A controller, easy to move three axes when setting the working point.

Lasers, Laser Materials, Plotters, CNC Routers

BravoProdigy BE3000 CNC Engraver Machine

The desktop CNC router/engraving machine features an aluminum alloy case and a strong structure with high stability. An anti-dust box is available to dustproof and soundproof. The machine comes with software, is easy to learn, and suitable for beginners, semi-professionals, professionals, and hobbyists. It is suitable to engrave acrylic and ABS, plastic, wood, foam, wax model, styrofoam, EVA foam, epoxy, rubber, soft metals, PCB, etc.

Vacuum Former 1210

- Produces professional, quality and high-definition vacuum formings
- Includes a single zone ceramic heater system, high flow vacuum pump, silicone upper seal and easily replaceable platen seal
- Mechanical interlock prevents taller moulds from damaging the heater system

Technical specifications

- Sheet Size: 305 x 228mm
- Forming Area: 280 x 204mm
- Max Mould Height: 115mm
- Max Material Thickness: 6mm

Part No.	Description	Price Ex GST
P107968	CR Clarke Vacuum Former 1210	\$5,869.00
P110504	Stand with Castors to suit Clarke 1210	\$627.50

Vacuum Former 725FLB

- Fitted with a -0.83 bar vacuum pump, which also provides a blow release to assist in the removal of the forming
- Heater hoods and platens run on chrome plated slide bars with nylon bushes for smooth operation
- Safety interlock to prevent damage to the heaters when using a tall mould
- One-piece moulded silicone top seal is heat resistant for long service
- Platen seal simply lifts out for ease of maintenance

Technical specifications

- Sheet Size: 458 x 254mm
- Forming Area: 432 x 228mm
- Max Mould Height: 152mm
- Max Material Thickness: 6mm

Part No.	Description	Price Ex GST

Plastics

Clarke Plastics Sheet Press Machine R30

The Clarke R30 Sheet Press is your versatile solution for transforming granulated thermoplastic materials into usable forms with precision, using heat and pressure. This machine excels at creating flat plastic sheets ideal for applications like vacuum forming, laser cutting, and line bending. Plus, it offers the option to craft shaped parts, such as Frisbees, with available tools.

P109188

Starting from

\$7,450.00

Specifications

Voltage	230V 50-60Hz
Max Current	8 Amps
Standard Sheet Size	457 x 254mm
Maximum Sheet Size	457 x 305mm
Sheet Thickness	2-3mm
Pressing Time (Excluding cooling)	10 minutes
Dimensions	690 x 581 x 655mm
Weight	92kg

Key Features

Removable Material Cassette:

The R30 features a removable material cassette, simplifying the loading process. Uniformly sprinkle material granules into the cassette for optimal results.

Temperature-Controlled Hotplates

Two temperature-controlled aluminum hotplates firmly clamp the cassette, applying heat and pressure to soften and fuse the material granules effectively.

Cooling and Optional Accessories

After the pressing cycle, the material cassette can be easily unloaded and allowed to cool. Enhance your R30 with optional accessories like the R30S stand, R30SC cooling fan set, or the R30W liquid-cooled press for reduced cooling time.

Sheet Size Versatility:

The standard R30 produces sheets suitable for our 725FLB Vacuum Former, but separately available heating trays allow the production of various material sizes. The R30T3 produces a 457 x 305mm sheet, while the R30T1 creates a 305 x 229mm sheet, perfect for our 1210 Vacuum Former.

Clarke Plastics Granulator Machine R25

The R25 is an industrial quality plastic granulator. Suitable materials for recycling include PP, HIPS, ABS and LDPE. Materials to be granulated are loaded into the hopper at the top of the machine. A combination of static and rotating blades gradually chops the material into smaller and smaller pieces. Once the material reaches a small enough size it passes out through a mesh filter and into a collection bin.

Specifications

Voltage - R25H Single Phase Version	230V 50-60Hz - R25H
Voltage - R25HH 3 Phase Version	400V 3 Ph - R25HH
Power	1kW
Max Current	5 Amps
Blade Rotation Speed	290rpm
Fixed Blades	2
Rotating Blades	3 x 4
Cutting Chamber Size	200 x 280mm
Output	80kg /hour
Noise level	85 dB
Dimensions	870 x 615 x 1320mm
Weight	265kg

THIS SANDING DISC RUNS RINGS AROUND ANY OTHER DISC...LITERALLY!

3M Xtract™
Clean Sanding Solutions

3M Xtract™ Cubitron™ II Net Disc 710W

Imagine a cleaner workspace, where **sanding is virtually dust-free**. The 3M Xtract Cubitron II Net Disc 710W is the premium option for a variety of substrates. The net backing combined with 3M Precision-Shaped Grain technology produces a virtually dust-free sanding experience. With this net disc, you'll be able to finish more parts per disc with less dust in the environment, helping boost productivity without sacrificing dust extraction.

Hygiene Solutions

AIR PURIFIERS

SIMPLE, HONEST CLEAN AIR

WHY CHOOSE SMART AIR?

Smart Air's purifiers are powerful with high CADR ratings. Therefore, Smart Air's purifiers, such as the Blast, are suitable for large areas that are common in schools. Subsequently, the Blasts's clean air output is 50% greater than most purifiers on the market for a fraction of the price.

PM 2.5

DUST

VIRUSES

ALLERGENS

POLLEN

MOULD

WHAT ARE HEPA FILTERS?

HEPA (High-Efficiency Particulate Air filter) capture and trap microscopic particles as small as 0.3 micrometres (μm) in diameter, such as viruses, dust, pollen, pet dander, mould spores, and other airborne pollutants.

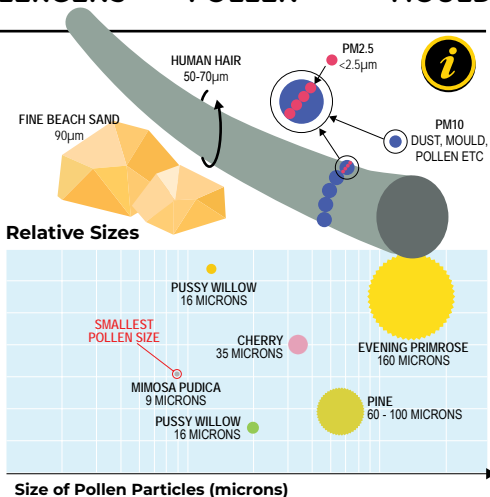

SmartAir uses H13 Hospital Grade HEPA, which is a specialized air filtration system that meets stringent standards making it ideal for maintaining clean and sterile environments in educational settings.

WHAT ARE CARBON FILTERS?

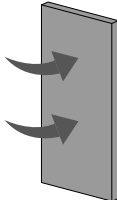

Carbon filters excel in removing odours, chemicals, and gases from the air. They are composed of activated carbon, a form of carbon processed to increase its surface area and adsorption capacity.

Carbon filters effectively capture harmful gases like formaldehyde, benzene, ammonia, and volatile organic compounds (VOCs).

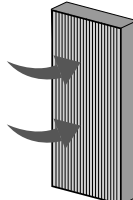

In combination with HEPA filters, carbon filters can enhance the overall air quality by removing both particulate matter and gaseous pollutants.

Pre Filter

HEPA Filter

Carbon Filter

Fresh Air

Hygiene Solutions

WHAT IS PM2.5

PM 2.5 refers to particulate matter with a diameter of 2.5 micrometers or smaller, such as dust and pollen, which can penetrate deep into the respiratory system and pose health risks when inhaled.

WHO IS AT THE GREATEST RISK OF PM2.5?

- People with existing lung and heart conditions
- Children ■ Seniors

Health Effects of PM2.5

Eye, Nose, Throat & Lung Irritation

Wheezing, coughing & Shortness of breath

Decreased lung function

Aggravation of lung & heart conditions like asthma & heart disease

WHAT ARE THE BENEFITS OF AIR PURIFIERS IN SCHOOLS?

AIR PURIFIERS REDUCE THE RISK OF AIRBORNE DISEASES

A HEPA filter air purifier can remove up to 99.97% of airborne particles as small as 0.3 microns. This includes airborne viruses, such as COVID-19 and influenza, which can spread through the air when an infected person talks, coughs, or sneezes.

AIR PURIFIERS IMPROVE INDOOR AIR QUALITY

Indoor air quality can have a significant impact on the health and well-being of students and staff. Poor indoor air quality can lead to respiratory problems, headaches, fatigue, and other health issues. A HEPA filter air purifier can help improve indoor air quality by removing pollutants and allergens, such as dust, mould, and pet dander.

AIR PURIFIERS ENHANCE STUDENT PERFORMANCE

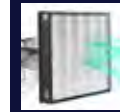

Clean air has a positive impact on student performance. Studies have shown that good indoor air quality can improve cognitive function and academic performance.

What Is PM2.5, And Why Is It Dangerous?

What Is the Best Air Purifier for Schools?

Data Logger

CleverLogger Starter Kit

The CleverLogger CLT-01 Logger sits inside your fridge and records temperatures. Every few minutes, it automatically transmits the temperatures to the Gateway.

The CleverLogger CLG-01 Gateway sits outside the fridge and is connected to the internet with either an ethernet cable or WiFi. It receives the temperatures from the logger and saves them on the internet. The Gateway comes with a power supply and ethernet cable.

Complexity made Simple

Tools For School's primary objective is to provide complete end-to-end fitouts for STEM, Technology and Culinary Spaces in Schools and TAFE institutions.

With our large range of trusted brands of machinery and local manufacturers of furniture along with a dedicated installation team, Tools For Schools can monitor the quality control of each process to ensure client satisfaction.

Equipped with market intelligence and knowledge of our client demographic, Tools For Schools understand the safety regulations that vary from state and territory, and will ensure equipment supplied exceeds education compliance standards.

OUR METHODOLOGY

-  **Design, Workspace Flow + Consultation with Architects**
-  **Detailed Cost Plan for FF&E (Furniture, Fixtures + Equipment)**
-  **Approval, Site Assessment + Establish Delivery Schedule**
-  **Manufacturing + Sourcing of Equipment**
-  **Onsite Unload, Install + set up of Equipment**
-  **Site Inspection + Final Sign Off**

Prices exclude GST. All product details including brand and pricing are subject to change without notice. **Refer to website for current pricing.**

**“ With quick delivery and friendly customer service,
I wouldn't recommend anyone else! ”** ACT

**“ You guys are great, couldn't be happier with you. Good
prices, it's easy, just place the order and then the gears here. ”** SA

**“ Service, friendly support and prompt delivery from
Tools for Schools has all been excellent ”** NSW

OUR COMMITMENT TO THE COMMUNITY

Tools for Schools has been supporting many Australian charities and communities over the last 40 years and continues to do so today.

We believe we can make a difference, which is why we generously donate over \$60,000 every year to those in need. We thank you all for your continuing support in enabling us to assist our community.

Just a few of the charities and school community events we support include:

**PROUDLY AUSTRALIAN
OWNED & OPERATED SINCE 1977**
